

All Season Arm Guard

\$40.00

I wanted an armguard good for all seasons. Big enough to keep a heavy coat or shirt sleeves out of the way, but still cool in the summer. This is what I came up with. It's light weight, but reinforced in needful areas, breath holes allows air to get to the forearm. Deer antler buttons can replace the brass hooks, leather tie thong or as shown with stretch cord available. Made from American Steers hides, veg tanned leather (same used to make saddles) Comes in either dark brown (shown) or Saddle Tan. Add \$8.00 for deer antler buttons.
